Profile Edge Cutter

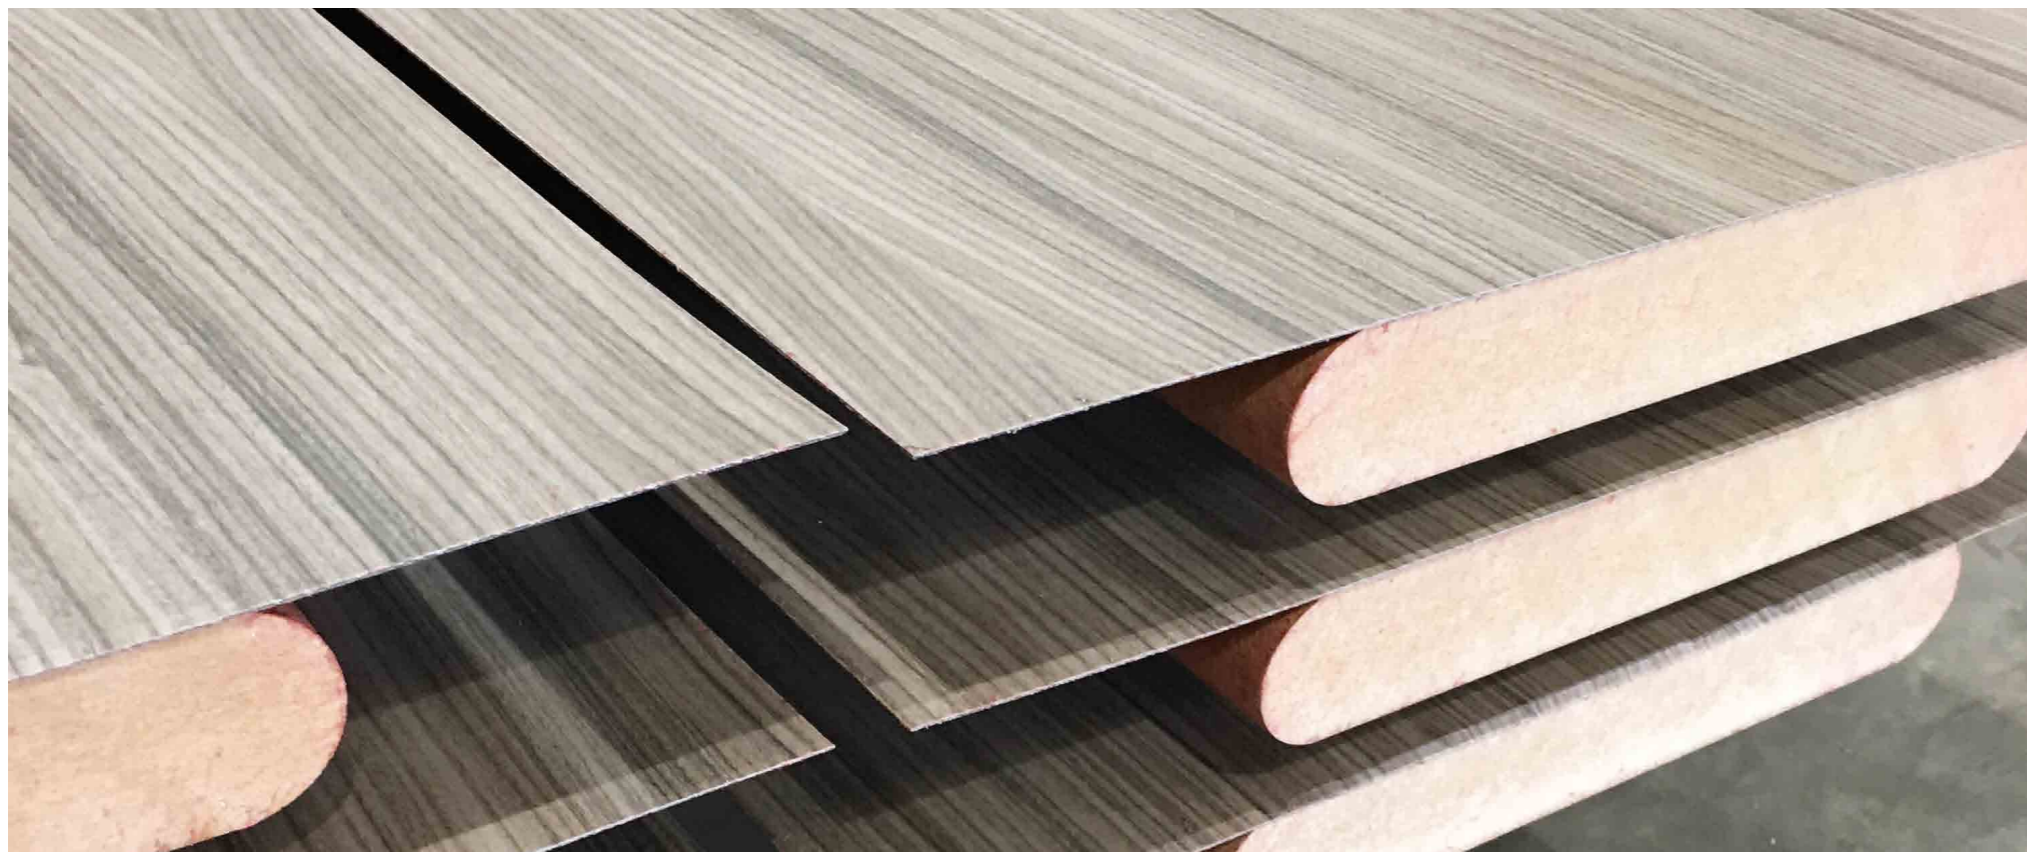

## MULTIFORM™

Multiform™ is Starbank's dedicated range of profiled and postformed panels. We can provide you with standard profile edge details for various thicknesses of material, as well as both external and internal postformed panels.

HPL and thermoplastic PVC are our most common type of decorative face material that we use for our Multiform panels. We have a choice of substrates we can use to meet all budget and project requirements.

We are able to offer you standard worktop profiles that cover a wide range of applications. However, as a bespoke fabricator, we are always willing to work with you to help try and create something specific for your project (subject to material and fabrication limitations).

Due to material and manufacturing tolerances we are not able to guarantee matching profiles for applications over the maximum single length (3000mm for HPL). Please state at the time of ordering if sections are to be jointed.

# Applications

Multiform – postformed and profiled panels encompasses furniture and fit-out products, such as:

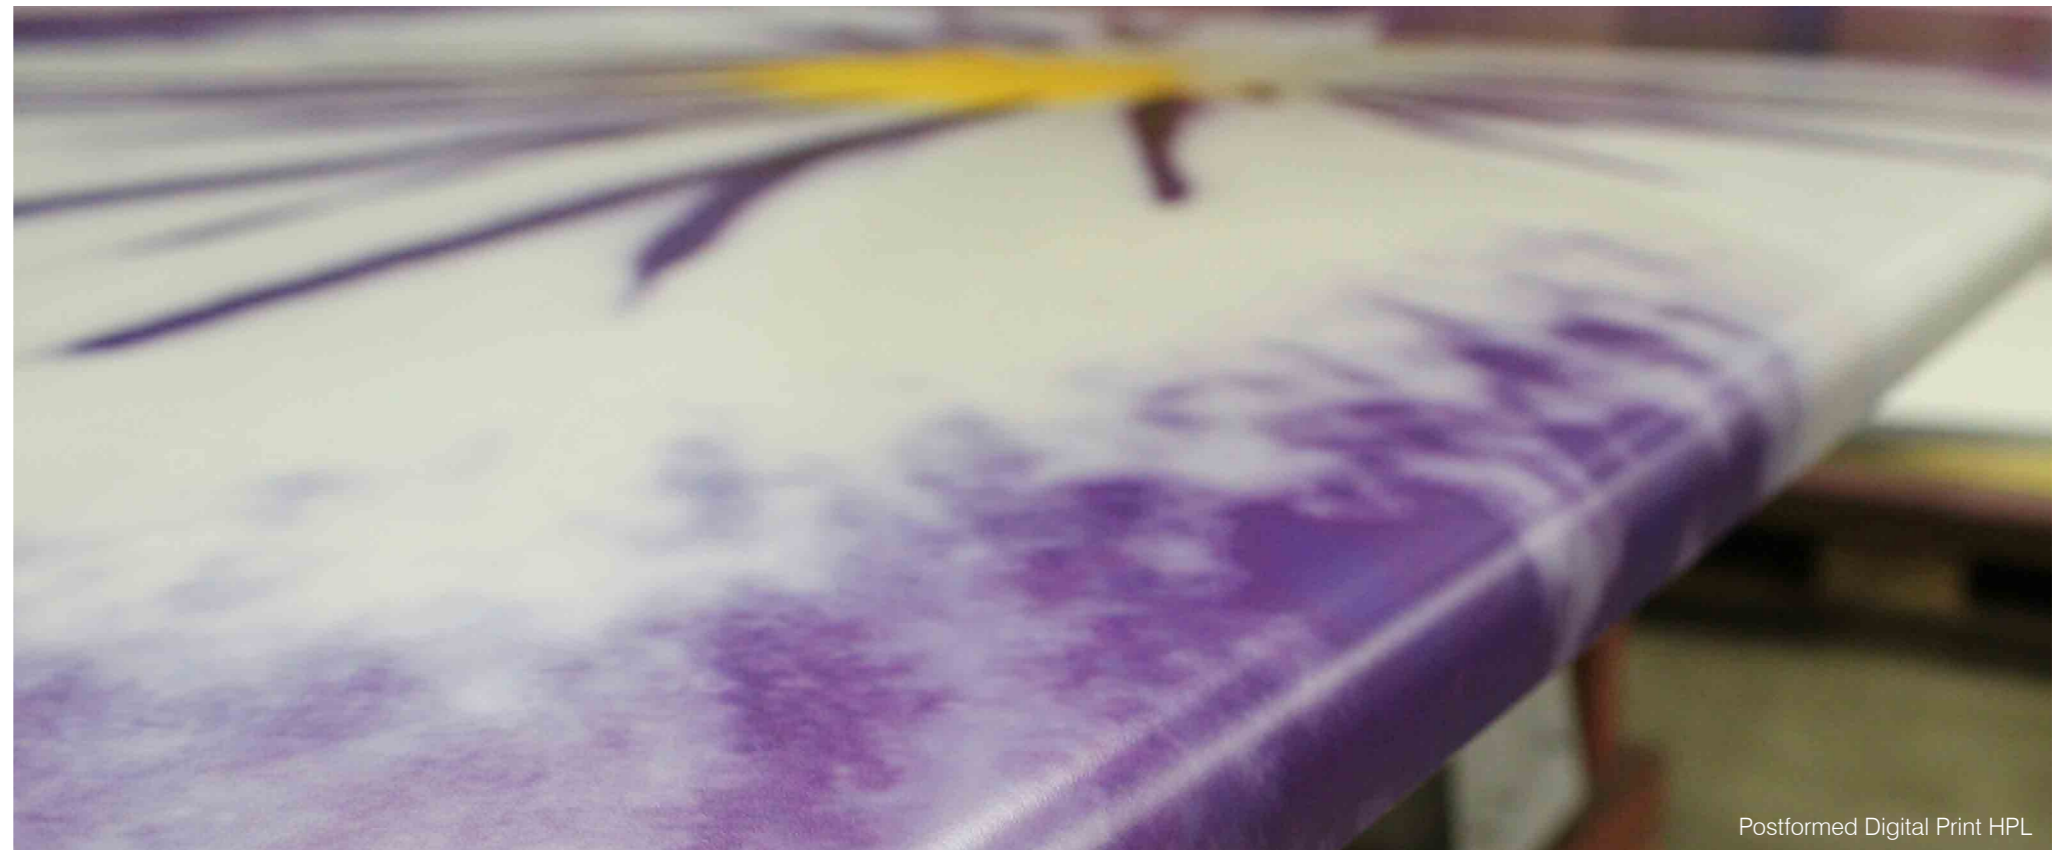

- **Profiled tabletops**
- **Vanity worktops**
- **Pharmaceutical worktops and window sills**
- **HTM63 grade worktops for healthcare environments**
- **Laboratory worktops**
- **Baby changing units**
- **Postformed wall panels**
- **Postformed duct panels**
- **Leisure facility worktops**

The composition of Multiform panels lends themselves to dry environments with light traffic. We do offer 2 composition varieties within our multiform range to help supply you with the correct type of panel for your intended environment, see our compositions below.

However, If you require postformed panels for use in wet, humid environments, then take a look at our **Aquaform® specialist postformed panels** booklet.

**Exposed Lipped**

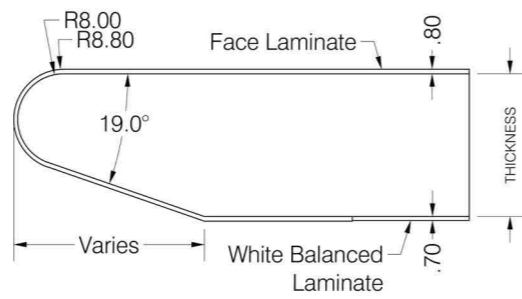

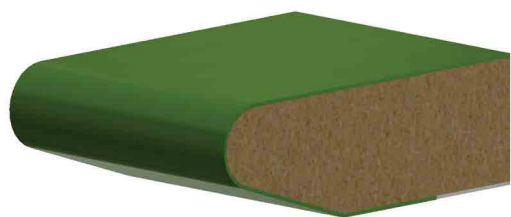

**Concealed Lipped - Square Cut Back**

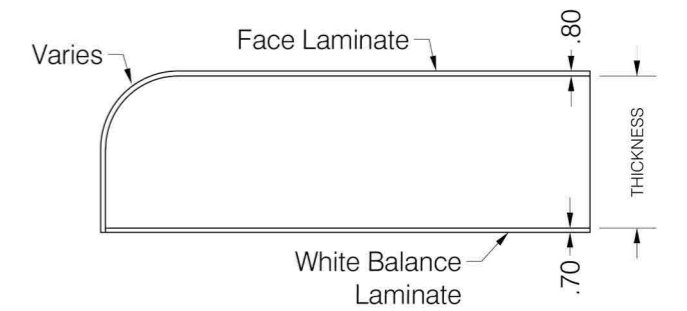

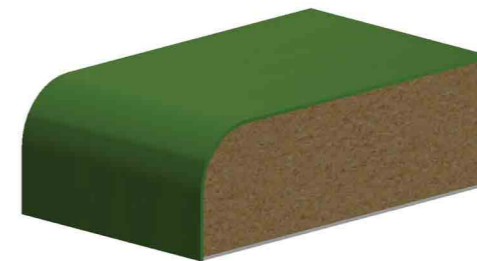

**Concealed Lipped**

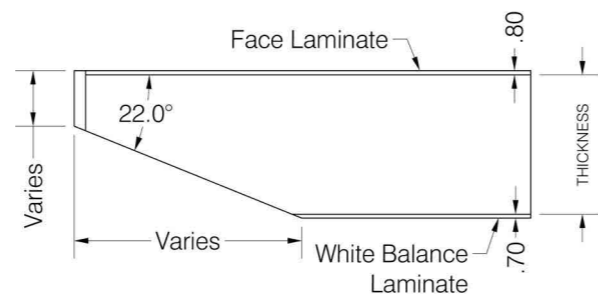

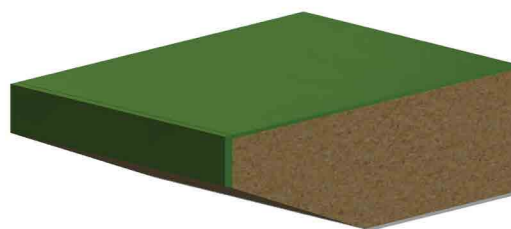

**Radius Cut Back**

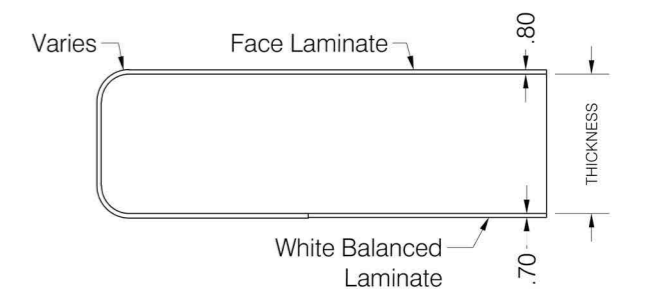

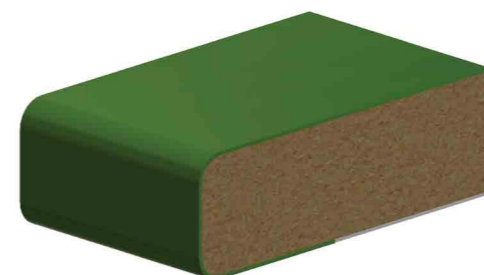

**Single Pencil Round**

**Square Cut Back**

**Double Pencil Round**

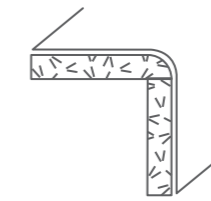

Multiform Traditional Vanity Worktop

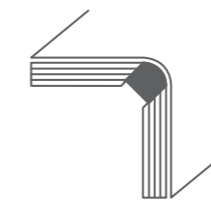

## Postformed Worktops

As our Multiform™ postformed vanities can be constructed using multiple methods ensuring we cater for all project budgets, we have organised our vanity offer into two simple types all of which can include sink cut outs for either an inset or semi recessed sink.

### Traditional

Our Traditional Multiform™ is comprised using a moisture resistant MDF or chipboard core and finished with a HPL or thermoplastic decorative face. We recommend this top for light traffic, dry applications only.

### Durable

Our Durable Multiform™ is comprised using a SGL or CDF core pieces that is finished with a HPL or thermoplastic decorative face. We recommend this top for medium traffic, dry applications.

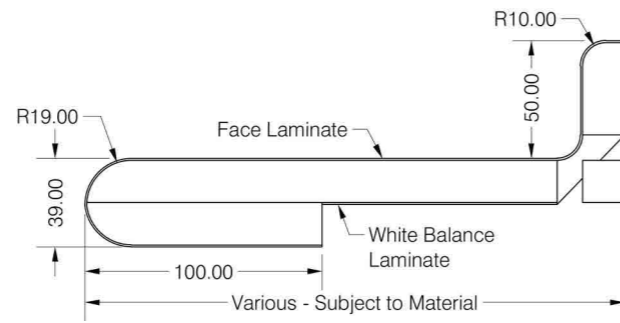

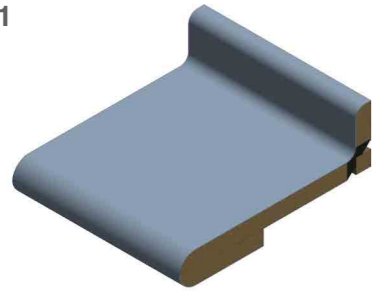

We are also able to offer you standard worktop profiles that cover a wide range of applications. As a bespoke fabricator if you need something unique, our CAD team as well as your dedicated account manager will work with you to produce drawings to your exact details\*.

Due to material and manufacturing tolerances we are not able to guarantee matching profiles for applications over the maximum single length (3000mm for HPL, 3660mm for solid surface). Please state at the time of ordering if sections are to be jointed.

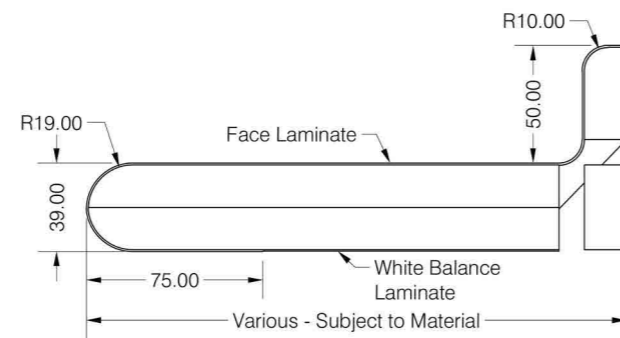

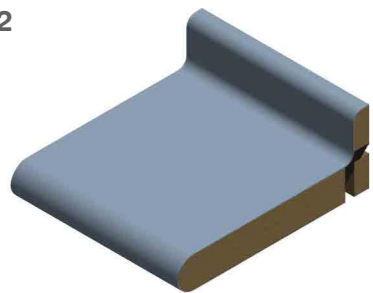

Subject to final approval and fabrication limitations.

# Sustainability

We continuously ensure that all our supplied materials meet the environmental standards set by all the relevant bodies. We manufacture under the following standards:

- **ISO:9001**
- **ISO:14001**
- **OHSAS:18001**
- **FSC® chain of custody.**
- **PEFC chain of custody.**

We are proud to be the first manufacturer of our kind in the UK to do so under BM Trada.

To date, we have invested over £2 million in environmental and energy saving initiatives.

With our investments into sustainability and guidance from Energy Gain UK Ltd, we are proud to say that Starbank Panel Products Ltd is now a certified carbon neutral company, in accordance with PAS 2060:2014.

This is a huge achievement, as we believe we are the first company within the panel fabrication industry to achieve this accolade. For us, achieving carbon neutrality status is a fantastic milestone in Starbank's continuing sustainability journey.
